We offer a unique opportunity for sponsors to reach Jamestown citizens and visitors who care about fresh, local foods, healthy living and community. Sponsors have the opportunity to support a variety of our programming, from our weekly farmers market, to the Jamestown Mobile Market, and our SPROUTs program, geared toward agricultural and nutrition education for children. Please contact us for more information on how your contribution can benefit our mission to ***'build the City of Jamestown's local food system through the promotion of locally grown, raised and crafted foods and goods, the encouragement of a healthy nourishing lifestyle, and the offering of related educational and economic opportunities.'***
